Issue Title : INFO Page Gross Weight Entry

Airplane Model	ATA	Minor Model(s)
737MAX	3165-00	-7, -8, -8200, -9
Other Model(s)	**ECCN**	
	9E991	

Originated Date	Last Revised Date	Created On
06/18/2024	11/26/2025	11/04/2025
Estimated Completion Date	**Next Update Date**	

Revision Description

There is an update to the Milestone timeline for 737MAX-FTD-31-23002. This FTD will be closed. Please refer to 737MAX-FTD-31-23002 for current status and release schedule of MDS BP2.

Applicability

737MAX airplanes with MDS OPS COL49-0078-0006 (BP1.5.1) and Metric fuel units option selected (DPC Option Selection Software (OSS) Option OSS_FUEL_UNITS)

Description

Boeing has identified an issue associated with OSS parameter OSS_FUEL_UNITS, specifically when the “Metric” option is selected, during internal lab testing.

When OSS Parameter OSS_FUEL_UNITS has Metric selected, if the maximum limit (91000 KGS) is entered as the Gross Weight (KGS) on the INFO page, the INFO application incorrectly identifies the entry as out of valid range and resets the Gross Weight when the INFO page is removed and redisplayed.

Background

Due to an issue with the unit conversion logic, the INFO application would convert the KGS entry into an LBS value outside of the valid range.

The INFO application behaves as expected when up to a maximum value of 90500 KGS is entered.

The INFO page Gross Weight is expected to have a range from 32000 to 91000 KGS.

FLEET TEAM DIGEST

The final fix will be available as part of the next MAX Display System (MDS) BlockPoint (BP) release, MDS BP 2, available via Service Bulletin 737-31-1929.

Please see 737MAX-FTD-31-23002 for current status and release schedule of MDS BP2 and a list Fleet Team Digest (FTD) articles that are also addressed by the MDS BP 2 release.

Interim Action

Operators should consider proactively communicating with flight crew that entering a value above 90500 KGS will result in the behavior described above.

Final Action

When available, incorporate Max Displays System (MDS) BlockPoint (BP) 2 Release, MDS BP 2.

Please see 737MAX-FTD-31-23002 for current status and release schedule of MDS BP2.

Milestones

Note: Target dates are based upon currently available status and have risk of future revision.
