## 737MAX-FTD-32-17006

**Issue Title :** Use of Mobilith SHC 100 in Aviation Applications - NOT RECOMMENDED

| Airplane Model | ATA | Minor Model(s) |
|---|---|---|
| 737MAX | 3240-00 | -7, -8, -8200, -9, -BBJ |
| **Other Model(s)** | **ECCN** | |
| 757, 767, 707, 737NG, 727, 737, 747, 777 | 9E991 | |

| Originated Date | Last Revised Date | Created On |
|---|---|---|
| 05/02/2017 | 05/02/2017 | 04/18/2017 |
| **Estimated Completion Date** | **Next Update Date** | |

## Applicability

All 707, 727, 737CL, 737NG, 737MAX, 757, 747, 767, 777 airplanes.

## Description

Mobil manufactures two different greases that have a very similar sounding name. It has been found that these two greases can be easily confused with each other.

"Mobil Aviation Grease SHC 100" is approved for use in aircraft wheel bearings.

"Mobilith SHC 100" is NOT for aviation use and is specifically labeled "Not For Aviation Use".

Both of these greases have the same color, but they have different formulations and performance characteristics. These two greases are different and should not be confused.

## Background

Mobil Aviation Grease SHC 100 was launched in the mid 90's, originally as a rebrand of Mobilith SHC 100. However, Mobilith SHC 100 was recently reformulated, while Mobil Aviation Grease SHC 100 was kept unchanged.

Mobil Aviation Grease SHC 100 is approved for most Honeywell (Bendix), Messier-Bugatti, Dunlop, and Goodrich wheels in use on Boeing airplanes. Refer to the specific AMM or CMM for allowable greases.

## Status

Closed.

## Interim Action

None.

## Final Action

None.

## Operator Action

Select a wheel bearing grease from the list of approved bearing greases in the applicable wheel CMM. Mobil Aviation Grease SHC 100 is also included in most Boeing AMM's.

Operators must make sure that Mobilith SHC 100 is NOT used. Mobilith SHC 100 is NOT for aviation use and is NOT approved.

Questions regarding the use of ExxonMobil products should be directed to the ExxonMobil Aviation Sales Territory Manager.
