Engine Model(s): PT6A

CONSUMABLE MATERIALS

1. General

This section gives data about the consumable materials listed in this manual.

2. Consumable Materials

The term "Consumable Material" shall be defined as an expendable substance which is not separately obtained from Pratt & Whitney Canada and which may be applied to the engine or its parts during maintenance.

In many instances, products such as cleaning materials, are mentioned by their trade names to assist the operator in identifying the product types. These names are representative examples only and their inclusion does not necessarily exclude the use of other equivalent products.

Specification numbers applying to consumable materials are basic numbers and shall be interpreted to include all revisions and amendments thereto.

Material Safety Data Sheets (MSDS) containing information about Trade Name, Safety Hazards, Health Hazards, Reactivity, Spill or Leak Procedures, Special Protection Information, Special Precautions, and Transportation and Labelling are available from the manufacturer of the products. Read the data sheets prior to using the consumable materials.

A supplier code with a (m) after the code is the manufacturer of the material and a supplier code with a (s) after the code is a supplier/distributor of the material.

Table 1 describes consumable materials used in the maintenance of the engine.

Table 1 Consumable Materials

Item	Nomenclature/Specification	Supplier Code
PWC01-001	Fuel, Engine (Ref. Approved Service Bulletins)	A0001

3. Suppliers and Supplier Services

The names of any companies provided in Table 2, as a possible source for required services or supplies, are furnished for information purposes only. Pratt & Whitney Canada Corp. does not endorse the work performed or supplies procured from these companies. Further, Pratt & Whitney Canada Corp. does not accept responsibility, to any degree, for the selection of such companies for such work performed or supplies procured.

The codes given are the Manufacturer's Commercial Agency of Government Entity (CAGE) number. A supplier used by Pratt & Whitney Canada (P&WC) and Pratt and Whitney America (PWA), who does not have a CAGE No., is given a SXXXX code by PWA. A supplier used only by P&WC, who does not have a CAGE No., is given an AXXXX code by P&WC.

Table 2 Supplier Codes and Addresses

Supplier Code	Name/Address
A0001(s)	Local Supply Local Purchase
A0002(s)	Butterfield (Litton) 91 Cornella St. West Smith Falls, Ontario Canada K7A 4T3 Tel.: (613) 283-8001 Fax: Telex: 05-33934
